PROJECTS

ADVISOR WEB APP   02/2024 – 05/2024

Build a Learning management system for teaching and studying

- Personal Development Project
- Applied Technologies:
  -Frontend: HTML, CSS, JavaScript
  -Realtime Database
- Features:
  -Implemented full CRUD operations for both student and teacher user management.
  -Enabled students to review grades, enroll in courses, and interact with academic content.
  -Allowed teachers to distribute instructional materials, evaluate performance, and manage grades.
- Link Github: https://github.com/ZuyFarmm/AdvisorWebapp 🔗

PORTFOLIO WEBSITE   03/2023 – 04/2023

A fully responsive personal portfolio showcasing projects, skills, and experiences.

- Personal Development Project
- Using HTML, CSS, and JavaScript, with a clean and modern UI design.
- Includes sections such as an about page, project gallery, contact form, and blog to engage visitors and highlight professional work.
- Link Github: https://github.com/ZuyFarmm/Portfolio-Website 🔗
